Real estate development, asset management and investment company.

Civilian Maintenance, Repair, and Overhaul (MRO)

Military Maintenance, Repair, and Overhaul (MRO)

provides comprehensive logistics, maintenance, and support services for military and civilian aviation.

A leading VIP & executive jet operator in the Middle East region  
A JV between ADA & WaveOne

Rotary Maintenance, Repair, and Overhaul (MRO) A JV between ADA & Leonardo

# The Achievement Milestones of ADA

**1976**

ADA formed under Amiri Decree to provide air service support in developing the offshore oil industry.

**1982**

Transfer to full public status. Shareholding split between Government (30%) and Public Shareholders (70%).

**1991**

Commenced Fixed Wing Operations.

**1996**

Commenced Fire Fighting Operations in Spain.

**1997**

Fleet upgrade to include Bell 412.

**2000**

Opened new facility at Abu Dhabi International Airport.

**2002**

Established Royal Jet in partnership with Presidential Flight.

**2005**

Fleet upgrade to include AW139.

**2008**

Commenced operations in the Far East and South America and acquired 95% of Maximus Air Cargo.

**2009**

Commenced SAR operations in the UAE.

**2010**

Commenced HEMS operations in Saudi Arabia for Saudi Red Crescent Authority.

**2011**

Agusta Westland Aviation Services LLC, a joint venture with Abu Dhabi Aviation, created a leading Helicopter MRO.

**2017**

Established the Abu Dhabi Aviation Training Center with two full motion helicopter simulators with other rotary & fixed wing simulators to come.

**2018**

Further develop the MRO to include Bell service center status as well as Agusta Westland capability

**2019**

ADA receives International Aviation Safety Recognition IS-BAO Stage 2 Certification (International Standard for Business Aircraft Operations).

**2020**

ADA receives International Aviation Safety Recognition IS-BAO Stage 3 Certification (International Standard for Business Aircraft Operations)

**2021**

ADA penetrate the African Helicopter Market placing 7 helicopters. ADA expand their capability to the Airbus H145 helicopter.

**2023**

1st SAF flight in the Mena Region

**2024**

Abu Dhabi Aviation Group is formed under the holding company ADQ. Including ADA, Etihad Eng'g, AMMROC, GAL, ADATC, Royal Jet, Maximus, ADAME.

# ADA Fleet – 68 Aircraft

# ADA`s Global Operation

ADA operates worldwide as well as from our headquarters in Abu Dhabi. We have established local operating companies in West Africa to cover the expanding African market especially Nigeria & have strategic relationships in Spain as well as other GCC countries.

ADA is currently an approved aviation service provider (passing all safety and technical audits) for major oil & gas companies throughout the world. ADA will be participating in upcoming tenders globally.

# ADA Aviation Activities

Offshore Oil & Gas Support including oil spill containment

Fire Fighting

Emergency Medical Services

Regional Fixed Wing Operations

Disaster Relief

VIP Charters & Air Taxi

Aerial Photography

External Load

# Helicopter Air Ambulance Services, Oil Support

ADA provides 24-hour Medical Evacuation (MEDEVAC) coverage for all local Abu Dhabi-based oil companies. This service includes offshore as well as desert locations. Third party coverage for specialized one-off missions such as seismic programs within the UAE is also often provided. Our team is also equipped with the right technology and training required to carry out offshore and desert evacuations.

Abu Dhabi Aviation in partnership with RPM (Response plus medical) for helicopter emergency medical services to support our core customer Abu Dhabi National Oil Company.

Abu Dhabi Aviation in partnership with National Ambulance deliver World class aero medical clinical care to U.A.E Government entities. Transporting patients outside the scope of traditional land based ambulances with a high level of care from point of origin to definitive clinical care.

# The Executive VIP Helicopter Charter Services & Air Taxi

AW139, the ultimate expression of power and performance, with style

ADA is proud to present its new AW139, Leonardo's new generation medium twin engine helicopter, with best in class performance, capacity and safety.

Its VVIP interior can be configured for up to 8 passengers, and also includes a chilled drinks and entertainment console.

The large spacious and bright cabin provides flexibility for the most sophisticated requirement.

- NVG

# AWAS

## AgustaWestland Aviation Services

AWAS is the Joint Venture between ADA and LEONARDO established to provide **FIRST CLASS services** to the Leonardo fleet in the Middle East. The JV managed **to double its size** in a few years becoming the point of reference for the customers in the Region.

The successful concept is to bring the services next to the clients rather than sending overseas helicopters and components or undertake sophisticated and complex upgrades.

The result is 24 months of continuous operations without work stoppage reducing TAT and costs

**AWAS provides services** to helicopters which are operated extensively throughout the UAE and the Middle East by Government Authorities, the Armed Forces, commercial operators and individuals

# Etihad Engineering

Situated in Abu Dhabi at the very heart of one of the world's most prolific aviation growth markets, Etihad Engineering is the largest commercial maintenance, repair and overhaul (MRO) services provider in the Middle East, and one of the world's leading MROs in terms of capabilities, delivering comprehensive aircraft maintenance solutions to airlines, operators and aircraft leasing companies.

With decades of experience on commercial Airbus and Boeing aircraft, Etihad Engineering offers a wide range of services including heavy maintenance, advanced composite repair, cabin refurbishment, livery paint, component repair and more.

Etihad Engineering is the first Middle Eastern MRO service provider to receive major cabin design and modification approval as well as Production Organisation Approval from EASA.

As a preferred MRO solutions provider for airlines and aviation operators, Etihad Engineering offers extensive capabilities, competitive pricing, and one stop solutions that exceed customer expectations.

Powered by a professional team drawn from more than 50 nations, Etihad Engineering delivers more than 200 aircraft annually to customers from all over the world.

Etihad Engineering has state-of-the-art facilities and continues to invest in infrastructure to support the growing business. Aircraft hangars at the 545,000 sqm facility cover 66,000 sqm including dedicated aircraft painting facilities and a custom designed hangar that accommodates up to three A380 aircraft simultaneously.

Etihad Engineering is a founding member of the Independent Aircraft Modifier Alliance (IAMA). The company also a winner of numerous industry awards and accolades including the

AMMROC provides industry-leading maintenance, repair and overhaul (MRO) services, engineering upgrades and integrated logistics support for rotary- and fixed-wing aircraft across the military and civil aviation sector. Boasting industry leadership, engineering excellence, innovative technology and a highly skilled workforce, the company offers unrivaled aircraft readiness, superior fleet deploy ability and unparalleled customer safety.

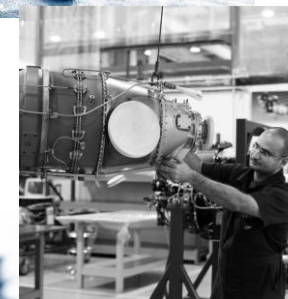

AMMROC's extensive overhaul capability draws on its strategic relationships with major original equipment manufacturers (OEMs), including Lockheed Martin, Airbus, BAE Systems, Boeing, Raytheon Technologies, Dassault Aviation, GE Aviation, Honeywell, Leonardo, Safran, Rolls-Royce, Thales, and others. This enables the company to reduce maintenance costs, increase aircraft availability, guarantee compliance with international standards and offer optimised supply chain benefits.

AMMROC provides comprehensive aircraft MRO services ranging from O- and I-level maintenance to depot-level repair and overhaul for engines, components and airframes, including painting, engineering and parts supply, and tailored modification and upgrade services. The company is the only Lockheed Martin-approved C-130 Hercules service center in the MENA region. It has the unique capability to modify and weaponise platforms such as the Sikorsky UH-60 Black Hawk helicopter – one of the world's most battle-tested helicopters – into mission-ready, multi-role combat helicopters. Spanning one square kilometer, AMMROC's state-of-the-art facility in Al Ain has the capability to service an extensive array of aircraft platform types. The site includes four multi-purpose hangars (32,000 m<sup>2</sup>), over 30 support and component back-shops, a climate-controlled paint facility (4,500 m<sup>2</sup>), a dedicated Black Hawk depot capable of servicing 49 component types and featuring the region's only dynamic blade test stand, and a cutting-edge training academy.

AMMROC leverages knowledge exchange as well as science, technology, engineering and mathematics (STEM) initiatives to build a highly skilled local workforce. The company works to contribute to developing the national aerospace and defence industry and preparing future generations for continuous technological innovation and advancement.

# Global Aerospace Logistics "GAL"

GAL

Founded in 2007 in Abu Dhabi, Global Aerospace Logistics (GAL) is part of Abu Dhabi Aviation (ADA) and the leading provider of comprehensive military aviation sustainment solutions, as well as specialized support services underpinned by a culture of service reliability and excellence with the unfettered strive to exceed customer expectations and deliver in country value. GAL's expertise ensures that operators' assets are always in optimal condition and ready for any mission.

Positioned as a strategic and trusted partner for the UAE Ministry of Defense (MOD), GAL delivers crucial operational support and comprehensive aviation-related military services for a diverse fleet of more than 500 fixed and rotary wing aircraft ranging from combat, transportation and trainer platforms.

With nearly two decades of experience in aviation sustainment solutions, GAL efficiently delivers valuable services that enable customers to focus on core operations. GAL's comprehensive portfolio includes being an aircraft sustainment solutions provider, offering maintenance services solutions, performance- based logistics programs, and manpower service solutions, ensuring reliable asset availability and mission readiness.

GAL's commitment to organizational growth is evident through its manpower solutions, which promote advisory practices, design and implement strategic organizational initiatives, facilitate knowledge transfer, and develop skills to support Emiratization efforts. GAL currently employs more than 5,000 personnel under professional service agreements with its clients. With a workforce spanning 71 nationalities, 37% of whom are Emiratis. GAL excels in meeting the demanding maintenance and supply needs of dynamic operational environments, such as first-line fighter units and military pilot training programs. Committed to Emiratization, GAL consistently supports end-users and develops local talent to continuously enhance the UAE's value.

GAL holds various international certifications, including ISO 9001 for quality management, ISO 14001 for environmental management systems, ISO 45001 for occupational health & safety management systems and ISO 27001 for information security management.
